

Ankit Kumar

Full Stack Web Developer

PROFESSIONAL SUMMARY

Passionate full-stack web developer with a robust command of frontend and backend technologies. Skilled in the MERN stack and willing to start a career with an organization that provides an opportunity to improve skills and knowledge gained, as well as to grow along with the organization's goals.

PROJECTS

1. TalentTech | |

React | Redux | OpenAI API | Tailwind CSS | TypeScript | Express.js | MongoDB

- Developed AI-interviewer Website to Revolutionizing Hiring Processes through Intelligent Automated Interviews
- Offering text, audio, video interviews with dynamic topic selection
- Implemented post-interview scoring system for comprehensive evaluation and feedback
- Integrated past interview scores with Chart.js for user feedback and objective evaluation

2. EcoFood | |

React | Redux | Bootstrap | Chart.js | RESTful API | Material-UI

- Revolutionizing Food Delivery: Ecofood's Seamless Online Platform for Fresh and Healthy Choices
- Implemented a dynamic product page with sorting, multiple filters, and pagination features.
- Created individual product pages for detailed information and a smooth add-to-cart process.
- Developed an admin dashboard with interactive charts using chart.js, stock management, add, delete, sort, reset and filter functionalities.

3. Medicare | |

React | Bootstrap | Material UI | RESTful API

- This platform aims to provide a convenient and efficient way for patients to book appointments with doctors online.
- Developed a user-friendly login/signup feature and hassle-free appointment booking with filters for doctors according to specialty
- Implement a video call and chatbot using Zego Cloud and Tidio
- Built an admin page with advanced functionalities including debounce, sorting, pagination, and doctor management

ACHIEVEMENTS

- **First position in Masai School Construct Week competition for solo project,**
Masai School
